### WAR THREAT LOOMS for BLACK EMPIRE

Harrar is capital of Ethiopia, province of Ogaden, considered in the center of the "danger zone" rhould the war clouds on the "Black Empire's" horizon burst into a storm of frenzied 'lighting, Harrar is almost a prime itive city as may be noted from this schember (Third in Series of 15 ailliefes).

### WATER PLANT DEAL PLAN IS PROTESTED

Goseipers Couldn't Fool Mrs. Flerce

SHE LOST 50

POUNDS OF FAT

Fail full of pep and possess the professory of the water plant would be assured if the purchase was made.

Dr. Smith spent considerable time bringing out a clear explanation of two questions One was whether the proposed purchase of the water plant would be submitted to the volers of Martion in the form you crave for. You will sten to gossipers you do not up the professory of a bond issue. The answer was whether the city expected to chain which was a possible to color and a possible to color and a possible to color and the water plant would be submitted to the volers of Martion in the form of a bond issue. The answer was whether the city expected to color was whether the city expected to color almost 10 years.

Dr. Smith—Should we buy the volers could exactle their constitutional rights of referendum. The third of some constitution of the plant in the event purchase was made. Again the answer was a treatment—lessed and sease the constitution of the plant in the event purchase price. Again the negline except that Mayor Bolin—They will be less than all present but we won't know was made Again the answer was in the negline. Event the city might seek a loan and grant of federal purchase of the city might seek a loan and grant of federal purchase with the continue till im 194. If one par (lasts 4 weeks ard consts but trifle) deean't lake 21 "so off you — money back.—

FIRE TORNADO, FARAIL INSCILANCE AUTOMOBILE—Selected to the company brought objections from officials and the city acquired the water property.

Dr. Smith spent considerable for the city and the city acquired the water property.

Dr. Smith—Should we buy the voters could exactle their constitutions from the city acquired the water property.

Dr. Smith—On what do you base prove with the company brought objections from form the company prought objections from the city acquired the water property.

Dr. Smith—Should we have the company should the city own the "obok vature" of the city and a diag

Would Have Appraisal
Mr. Jacoby asked Dr. Smith
what he would do were he in the
position of city efficial: Dr.
Smith said he would ask a good appraisal firm to give the city an estimate of what an appraisal would cost—"It probably would cost from \$10,000 to \$15,000," he said—and then ask the citizens of Marion if they wanted to employ the firm to make such an appraisal. He added he would want the appraisers to cut into sections of water mains, examine their condition, and otherwise make a thorough checkup on the plants value. Then, as other steps toward purchase came along, the citizens should be given opportunity to say if they wished to go ahead. Dr. Smith said. estimate of what an appraisal would cost—"it probably would cost from \$10,000 to \$15,000," he said—and then ask the citizens of Marion if they wanted to employ the firm to make such an appraisal. He added he would want the appraisers to cut into sections of water mains, examine their condition, and otherwise make a thorough checkup on the plant's value. Then, as other steps toward purchase came along, the citizens should be given opportunity to say if they wished to go ahead. Dr Smith—Bo you think the city is going to get all the "hot air" out of the company's records before by it was to remail you." Dr Smith—Bo you think the city is going to get all the "hot air" out of the company's records before by its going to get all the "hot air" out of the company's records before by its going to get all the "hot air" out of the company wants \$1750,000 for list property and the city has made an offer of \$1200,000—thair's \$550,000 of "hot air" were trying to the company wants \$1750,000 for list property and the city has made an offer of \$1200,000—thair's \$550,000 of "hot air" were trying to eliminate Dector, let me ask you all the water that he had a lower water rate if city countified in the property and the city has made an offer of \$1200,000—thair's \$550.000 of "hot air" were trying to eliminate Dector, let me ask you all the water trying to eliminate Dector, let me ask you any artist of the questions and answers given during the two-hour discussion on the property and the city and a lower water rate if city countified the property and the city and the city and the city and the city has a put into effect when it was put into effect w

## WHOSE WORD WILL YOU TAKE FOR BLOWOUT PROTECTION?

LOW wheels, larger tires, and the high speeds of today make blowout protection in your tires vital to your safety as never before. Are you accepting exaggerated and unsupported advertising and sales claims-or are you accepting the judgment of men who risk their lives on their tires and know from experience the tire that gives them the greatest blowout protection?

Thirty-three race drivers and their mechanics lined up for the dangerous, gruelling grind of the 500-Mile Race at the Indianapolis Speedway May 30th. Firestone Tires were purchased and used on every one of the thirty-three cars.

of 106 miles per hour. Wilbur Shaw was second, flashing across the finish line just behind the winner. Both drivers broke the track record without tire trouble. In fact, not one of the thirty-three drivers had tire trouble of any kind.

For sixteen consecutive years Firestone Tires have been on the winning car. The race this year simply emphasizes again the undisputed evidence that Firestone Gum-Dipped Tires have the greatest stamina and blowout protection.

reasons why Firestone Tires give such amazing performance. By this process every cotton cord is soaked and every strand is insulated with pure liquid rubber, preventing internal friction and heat. the main cause of blowouts. Gum-Dipping is a patented extra process not used in any other make

When you consider that there were 882,000 automobile accidents in the United States last year, and of these, 43,000 were caused by blowouts, punctures, and skidding, you will more fully realize how very important it is for you to protect your life and the lives of others by equipping your car with Firestone Gum-Dipped High Speed Tires -the safest tires built

It will be worth your time to read these three questions and their answers:

QUESTION 1—"Will the tread give me the greatest traction and protection against skidding?

ANSWER—Leading university tests show Firestone High Speed Tires stop your car 15% quicker than the best of other popular makes of tires.

QUESTION 2—"Are they built to give me the greatest blowout protection?"

ANSWER—Unequaled performance records for sixteen consecutive years prove that Gum-Dipping gives you the greatest blowout protection ever known.

OUESTION 3-"Without sacrificing these two important safety features will they give me longer mileage, thus making them the most economical tires I can buy?

ANSWER-Thousands of car owners report unequaled mileage records—evidence of the longer wear and greater economy of Firestone High Speed Tires.

### Drifting

The corr tellers whants in wants in believe. That a why when Print for I Re ra elt acrossical his work result plan to take men eff r lef lints and give them real Jobs it be levell fle Thing could be dine.

A month before the work rited program

is to become particle ther is convincing preclit with a direct it with a direct in its son is I vious Money in the stretched not ever four tillion dollars. Fo provide rent jobs on troircts of resmanent value fir tetween three and four million men the government would ned twice as much money as it has available to spen I for work

By reducing the figure to comprehensible proportions the problem can be made plainer In a community of 4 men four men need relief. The community decides to b rrow \$1000 to make relief available Chat amounts to somethly gless than \$1,000 a year for each beneficiary after admin istrative expenses and the cost of equip ment have been deducted

If the community decides to hulld a fire station for instance it must pay something like half of its available money for ma terials. The rest approximately \$2,000 will he divided among the Inur men who need relief. That would not be enough community decides to employ the four mun on jols which do not require any expendi ture for materials

That was the policy of the civil works the policy of the work relief administraadministration. Apparently it is to become expensive. They divide money up into ter-many portions. Although the arithmetic of the proposition is simple no one took the pains to investigate it until the government finally drifted up against reality when it started to administer the first portion of the work rilled appropriation. He new program thus promises to become in large measure the dole to ter another name

### Idle Curiosity

It's idle chilosity to won let what Brino Richard Hauptmann is joing while swait ing his affect from consistint for the man der of the I indican halve Hugimon f unit guilty of one of the feul sterimes of his li la lest facotten.

He of cour e is looking followed not to the carrying out of the death sent aco insaed on him but to the su essful out come of the appeal of his conviction. That Is the natural filing under the circum stances. While there is hope

His time in the death house which he occupies with three other cor I a ned men is specificomposing music and littles for songs which the four prisoners sing. This also play pinochio and checkers dictating the plays and most. They are not per mitt d lo ser en h ciber

It a n reflection on New leases justice to right whitevery ne who has followed the Hamptonin ca has sall or at least wished suce the judge pased self ne People in Halpiman well onfer Even though a nursel of his gill, he still cultivacene the reassurate conty a confession could gild then. Mais would sissed in the absence of a confesion the France Hauptmann had to hing to

The case is led to gotten but the hard men see and to rues in a fex mone s when appeal proceed as open is sill relived again. Perhaps the limb I ste wil be so en it one left unan weted

### Reassertion

President for lit in a press o nference Frilay generals! gorm tied correspondents to quote directly his anxion to the follow ing quetien saked t, a Canadian newsfar rmin. What would you say was the e cial objects e of the administration?

If we son large question I resident Roose well might have aldestepped it for fear of giving an inadequate reply. Because he show I courage It is a privilege to regaint the fellowing renesertion of his administra tion a objective

The social objective I should say re n najjet what it was shich is in do what noy ben at government of any country would do to try to increase the security and the happiness of a larger number of coule in all occupations of life and in all parts of the country to give them more of the good things of life. In give them a greater distribution not only of wealth in the wider terms to give them places to go in the summer time-recreation to give them assurance that they are not going to staire in their old age to give honest hust nes a chance to go ahead and make a reasonable profit and to give everyone a chance to earn a living

President Poosevells motives never have hern questioned not even by his severest critics. His methods are being questioned constantiv by his friends as well as his opponents. His administration will be accounted successful or unsuccessful on a basis of what he was able to do not what he wanted to do. If it were possible somehow to make permanently offer the distinction between motives and methods crificism of the administration would be freed of the taint of prejudice against Mr Roomeelt's underliably high purposes. In most instances the taint is ascribed by ardent friends of the President unwilling to bear the in rejiable criticism which is the burden of every man who attempts to do a big job

### A Nice Distinction

Commonweal a weekly magazine of high rank among Latholic readers has declared its position on Fr Coughlin whose activities have inised the question of when le is speaking for the church and when he li spe lting (a himacit

The Commonweals declaration entails a tice distinction between the Detroit priests two identities. If the distinction seems om what finely drawn that probably is a true sien of the fine distinction which actu

It is bus I on the difference between ad o allng cell in principles and urging spe cific means of making the same principles effective. Thus the Commonweal con cludes the policy of the National Union for Social I stice and the specific measures arbocaled and promoted by that organization us this are dictated by Fr. Coughlin are not into ted with the authoritative support of the Catholia church

As a priet fr C ughlin is expected to espouse the g sel doctrines of Christian life. He would be remiss in his duly if he did not try to effe tunte the practical application of the clurch teaching hat as organi er of a group outside the church thi h seeks to off tuile certain ideas rep teser this Fr Coughlins own views of the Lest methods of travialing (helslish dec-trine into law Fr toughlin does not have He official backing of the church t rsoi I fellefs therebs are separated from

his beliefs as a priest. It is plain after digesting if only in part the C mmonwents statement that Fr Courlin's personal problem is an exceed th difficult one He to one side as a priest and gaze upon blox mon and a consersal Bell that is conferent his a vities as priest and lavn an conference and by eyen so keen

## Take the MODERN Step in REFRIGERATION!

Safeguard the Health of Your Baby and Family With ICE

COLD IS ONLY ONE PART OF REFRIGERATION

### There Is a Difference in Air

Difference in Air
And what a difference!
What a difference between
the air of the downtown city
street and the air of a mountain it p. M. metals air is al
ways clear crisp pure and in
vigorating.
Air is as important to our
well being as riod and drink
ties! I fare air is a toole
lingure air is a danger a
source of infection and dis
case.

### Circulation First Part of Purified Air

Would you sleep in a very small room sealed so tight that there wasn't a breath of moving air! If you did the air would soon become in pure even poisonous. Your sleep instead of bringing resi would bring only discomfort

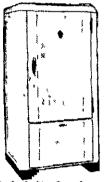

would bring only discontorland slokuess. You hastst upon all circulation in your bedroom. Still air in your bedroom. Still air in your bedroom or in your refragerator soon lee mes contaminated air to keep air purified circulation is the first essential. The air in the ICF refrigerator is in constant circulation. If it keeps the air within the refrigerator continually moving.

### **Ventilation Second** Part of Purified Air

It is so easy to see why ICF refrigeration is so much of home refrigeration. All your own every day exper-

innees

You know that to have pure air you must have it reliation You must have it reliation You know too that if you want to purify a room you air it. What do you do when you air it. What do you do when you all a room? You not only circulate the air but you open a windo wo that the old air and the olders pass out of the room. The same thing is taking place continuously in the ICF reference candion.

### Washed Air Complete

fresh such after a spring rain. The sir has been

air in a refrigerator passes over the ICF thousands of times a day

### Part of Purified Air What is sweeter than the

washed of dust and impur-ities it has been refreshed itles it has been refreshed and purified And what do they do in the large theaters. They wish the air It takes eashing (mater) to completely clear and purify air Water shootes purified an it has nir and it absorbs edoes and gases.

And ICF is the only refrigeration method that completely purifies the air in the refrigerator by Circulation Yestibalion and Washing The air in a errigerator passes.

# Marion Water is "SAl

Good, pure, clean water is as essential for a baby's bath as good milk is to its diet--the purity of the water you get from your tap at home is determined by analysis taken several times daily.

Cleanliness is one of the most important factors in your baby's health-use plenty of water.

### Foods Breathe here isn't insthing of more importance than our duly food and no nutter is more worthy of

than the care is rise this food. The fresh foods we keep in the home refrigerator really breather

Our annual case tells us that if we want to keep these foods in perfect condition we must provide a way of purify ing the air in the refrigerator. Cold is only one part of refrigeration. purifying the air is an even more important part. It is no are enough about your health to insist upon perfect home retrigeration. Son will ment upon ICF refrigeration. It is rition alone purifies the air in the refrigerator by enrollation accitation and washing. If you want complete and perfect refrigeration there is no substitute for ICF Refrigeration

THIS AD IS GOOD ALL WEEK

And I we run was from home said Allson

That story les I realized last is reasoned with a foreign gigoty inghi when you-wouldn't liste to me what an abject utter as: I heen I flow ke whom I we were deal night. I tell you I was on to pint of gong of the police.

But why?

Its rather a long tale. Let find somewhere where we can talk. They found a little basement cafe with bright cooper covered tables. It was 17:15. The place was just beginning to fill up but they choe a table out of lange of latening erry. Even after the waiters had taken their order they safer a moment just looking at each other Oddly satirfying just to sit and look at him and smile.

If has e og right back to the Eighning in just over a year ago he warred Alison or you won tundersland why I dishibled in a warred lie nate in of the home.

Sprinkle Ant Food along win dow sills, doors and openings through which sents come and go. Guaranteed to rid quickly Used in a million homes. Inex

ROECKER'S

marrow s loaf of -

Ask your friends who own an Electrolux and they will tell you that gas refrigeration is more practical and economical. When you have used it you will heartily agree. Gas refrigeration saves three ways. It costs less than 3 cents a day to operate on natural gas, compared to an average of 10 cents for other methods. It has no machinery, fans. or belts to make noise, wear out and necessitate costly repairs It saves on food spoilage and enables you to take advantage of quantity

### SULLIVAN TO BAER FOUR GAMES A Pictorial History of the Heavyweights

XVI -TUNNEY VS HEENEY-1928

Gene Tunne closed his fight ing cereer on the night of July 26 1928 with a technical knock-out victory over the so called Hard Rock of New Zealand Tom Heeney in the eleventround of a 15 round match for the heavyweight championship of the roll of the control of the coll 
Tom Heeney in the content round of a 15 round match for the heavyweight championship of the world. The suiteholder retired a month later. It was a one sided affair. Tunney quickly soiled Heeney splodding awkward style and methodically cut the chunky. An zac to albbons. In the seventh round the champion landed a tight hook that paraitzed the optic nerve in Heeneys left eye. Despite this tremendo is handleap the challenger fought through nearly four subsequent rounds absorbing territie pin ishment. The bell saved him at the close of the tenth round flandlers dragged him to his corner and revived him sufficiently to many reasons. ner and revived him sufficiently for one more stand. Referee Ed

die Forbes stopped the slaughter with eight seconds to go in the ele enth round

with eight seconds to go in the ele enth round.

Ifeld at the lankee Stadium under the promotion of Tex Rickerd the bout was the biggest financial flop in heavy weight title history up to that time. Heeney was not a popular challenger although he had the best record of the heavy weight action of the heavy weight participating in the elimination series leating Johnny Risko and Jack Delaney besides earning a draw with Jack Sharkey Tinney was accused of handpicking Heeney from the available 'tal.

Total attendance was 15.890 and gross receipts 5691.014 These figures would be sensational now since the big fistic deflation but at the Hime it meant a loss of close to \$300.000 for Rickard and his associates Funney was guaranteed \$525.000 and Heeney \$100.000
